

MWCC Membership Meeting, October 19, 2016

Board Members present: Greg Landsman, Brian Fortin, Marc Raab, Jody Pol, Alex Linser, Bill Holzman, Zak Slemmer, George Lehocky, Wade Johnston

Called to Order at 7:05pm

Fire: Tom, Engine 7. 1200 medical runs so far this year. Nine doses of Narcan administered during September in MtW, possibly a couple for the same patient. It is common now for patients to need more than one dose to wake them up, due to strength of drug. And the inclusion of (Car-?) Fentanyl. This figure could include California. City-wide: 376 Narcan doses in September, 1940 year to date.

October is fire prevention month, handouts, remember to replace alarms every 10 years, outside each sleeping area, and inside, can get wireless smoke detector

Police: Thefts down, robberies down, theft from autos down, 7 theft arrests in September. Rape is up from 2 to 5, but most other stats down. Rapes reported doubled—more people reporting? Officer Butler not privy to that data. Drug take back on Saturday morning from 10 to 2 at Mt Washington Methodist Church on Corbly. Question regarding data on Police administering Narcan-- Fire arrives first and administers Narcan, Though Police report Narcan uses, they do not compile a report.

CRC: Rec Center is a polling place for two districts, and a large volume of voters expected. Please be patient.

Alex mentions that visitors please try to keep to 2 minutes. (They do!)

Eve Bolton, Issue 44, Strong Start, Strong Future: School Levy, passes out pamphlets and fact sheets. Over 35,000 K-12 students, above forecast, this year. Levy is for 48 Million, 15 of which would go toward the expansion of the public preschool program, the rest to K-12 helping to close the digital divide, among other initiatives. Coordination of public and private efforts. Passage would add \$283 per year on a 100K house. A request for lawn signs.

Alicia Culman, Great Parks: on ballot with 1 mil replacement levy, approved in 1998 and 2002. Asking for same millage to fund 55% of Great Parks budget, other part comes from non-tax revenue, representing the most sustainable budget around. Conducted performance audit, and held 12 public listening forums before presenting this levy. Great Parks has 6.8 million visits per year, which is more than the Reds, the Bengals, Kings Island and the Pumpkin Chuck combined. Wade reminds us all that Great Parks is the builder of Little Miami Scenic Trail.

Teri Nau, Issue 53: Speaks about the Children's Services Levy, which supports abused and neglected children, foster care and adoption programs, and 241-KIDS. These programs are mandated services and this levy is a renewal, \$56/year for

homeowner. One in every 12 children in the area is affected by this levy, and it is the last on ballot.

Greg Rudolph, McNicholas HS: Project Paradise, Phase 3 almost completed. A service road was put in behind stadium for emergencies and access concessions. A new storage was building built and a pavilion area. Concessions will be renovated, and Phase 3 is expected to be finished by end of year. Want lights, support and funding. We need 105% of funding to begin. Greg plans to attend mwcc meetings every other month and expects big crowds when lighting project is proposed, 'for one reason or another.' Fighting for enrollment these days, like other parochial .schools. Would like to bring whole package to community with night games. Prepping for support for lights. And will hold info sessions of their own, and will ask to be put on CC email newsletters.

Presidents Report: Alex Linser. Pumpkin Chuck on Saturday, Nov 5 from Noon to 5pm. The solution to the insurance drama was explained, and this event will be a fun time. Last meeting before Nov 8, election day, CC does not endorse candidates or issues, but does stand for people being involved. Residents can vote now from 8 to 5 at the Board of Elections, or absentee from their living room. MtW has predicted the outcome of several recent presidential elections, Hamilton County goes the way of Mount Washington, Ohio as Hamilton, and of course, the USA as Ohio. Make it happen, Mount Washington.

Treasurer's Report: Marc. Calm before the storm (chucking). Not many expenses or income this month. Under zoning— Ranchvale Terminus survey expenses approx. \$300. Report accepted.

Secretary's Report: September membership meeting minutes accepted. Phew.

EDC: Still working on video, expected to wrap up beginning of November, after Pumpkin Chuck, two weeks for post-production, and possible release date of Nov membership meeting. Next EDC project will be a recap of the recap of the comprehensive plan, try again to get other groups together. Cheri says hi, on EDC, looked at 2007 plan and decided what was relevant, what was completed, and what is no longer helpful. Put together report card and update to stay the course. Brian explains the Comprehensive Plan is a tool for the city to gauge how community is progressing. Report Card is in lieu of re-doing the Plan, seeing where and how we can develop those ideas that haven't been developed yet.

CEC: George Lehocky and Zak Slemmer. Accepting new members and volunteers for the council and the committee. Postcard and Spring/Summer event planning to get going.

NSP: Greg Landsman. \$6,800 per year, last year we utilized \$6,790.57 to storage cabinet, Pumpkin Chuck, beautification, video, summer camp, insurance. We will be looking for approval for the plan for 2017—amendments are possible, and

additional \$900 made available to increase NSP (by almost 50K City-wide) making it \$7,700 for 2017.

Support schools at \$150 per, which translates to a week of summer camp for a student. \$450. Tree removal, upkeep and beautification \$1000. Marketing: postcard, video to finish off production and advertise on social media, with the idea to sell the community, to get folks shop here, go to school here, and move here. Also insurance, and funding for a community event like 'summer street fest,' to complement Pumpkin Chuck and help neighborhood becoming more energized, and add another draw to Mt Washington. Sample budget of Walnut Hills Street Fest mentioned, \$800 for Police and permits, and probably not \$10K for stage and musicians.

What to do with extra \$900? After much discussion, \$300 will go SPAC and it's funding for marketing Market in the Park. Yard signs, band and vendor recruitment. \$600 will go toward production of community event. Alex knows a guy about signs. Alex friend count: 1 for trees, 1 for signs.

Lissa Pogue moves to adopt existing NSP proposal for year 2017, \$900 not yet included. Second. Discussion.

Formal Amendment to utilize additional \$900 for both community event and marketing for Market in the Park, \$600 to event, \$300 to Market in the Park. Seconded.

Remember, with any amount under \$1,000, the Council can re-allocate funds. Also remember, once approved, Alex and Greg will celebrate by presenting our budget before the City Elders.

Motion amended. Nobody speaks. Vote on main motion to accept proposal as amended, ayes around, unanimous.

A more detailed budget will be present to the Membership before final numbers are submitted to city for reimbursement.

Dollar amounts and point people:

\$450	School Support	Greg
\$1000	Beautification	Alex
\$2,391.48	Marketing	Brian, Zak
\$1200	Insurance	Marc
\$2350	Event	Zak
\$300	Market	Jody

Webpage and newsletter: Check it out! More calendar info, volunteer opportunities, and corrections regarding newspaper story. Sign up for the newsletter, now highlighting community happenings. Check a facebook and twitter.

NIC: Rick Meador. Continue to search for nuisance and neglected properties. Praise for Officer Kevin Butler! He helped approach a particular apartment building. Graffiti popped up and Jody and Wendy's Manager, Terri spent 5 hours in the sun, washing it off and painting over. Thank you to Wendy's and Terri. Cheri suggests 591.6000 as a resource to have City clean up graffiti. George asks is Wendy's graffiti was a crime and if it is has been reported, and if it's possibly a message from a gang. Wendy's graffiti is vandalism and not gang related. A second request to thank and praise Terri. New member on Committee- Lissa Pogue has joined! More volunteers welcome.

CIP: Bill Holzman went to grand daughters birthday party. Priorities are wonderful.

PF! Coalition: George Lehocky poses this question: How many pounds of prescription drugs were collected last year in this country? After a few outrageous guesses, the answer is 893,447 tons. Drug collection of unwanted prescription drugs from 10 am to 2 pm this Saturday at the Mt Washington United Methodist Church on Corbly. Drive through and no questions. Out of a partnership with DEA and City police. No liquids, please, needles or sharp object. Medicines that languish are susceptible to diversion, misuse, and abuse. Prescription bottles not necessary. Save the pets. 2016 drugs survey of students— parents and friends are the most popular source. People get hooked early. MtW is getting the reputation of 'having an issue and doing something about it.' 'Not in My Neighborhood' yard signs available. Mt Washington Prevention First! Action Coalition meetings are the first Thursday of each month, for 1 hour, at 5:30 pm at the MtW Methodist Church on Corbly.

For the Good of the Order:

Glen from American Legion. November 11 is Veteran's Day. American Legion 1837 Sutton, will have a 30 minute ceremony beginning at 7pm. Includes a presentation by a retired, former Naval Petty Officer. Come for patriotic music and speeches and famous hotdogs and chili dogs and refreshments. Also come for the Legion's breakfasts on the second Sunday of the month from 9 am to 12.

Tonia mentions the Sands Carnival on October 29 from Noon to 4 pm. There will be games, food trucks, vendors, and various nonprofit organizations. It is a big fund raiser for the school and the organizations. It will be fun and there will be a bounce house.

Josie receives several applauses. Adjourned 818. A number wins. And then 714400 also wins!

Question regarding status of New York Deli space. Not sure. Litigation resolved?

Minutes Amended and Accepted. 11/16/16
